EDUCATION

Birla Institute of Technology Aug. 2024 – May 2028
B.Tech in Computer Science Engineering; CGPA: 8.60/10 Mesra, Ranchi, Jharkhand

EXPERIENCE

Innobyte Services Sept. 2025 – Oct. 2025
Web Developer Intern Remote, India

- Developed a responsive hotel website to showcase rooms, services, and amenities using HTML, CSS, and JavaScript.
- Built room listings, image galleries, contact forms, & inquiry flows; improved usability across desktop & mobile layouts.
- Worked on cross-browser compatibility and responsive styling to provide a consistent user experience.

PROJECTS

Multi-Tenant Issue Tracker | React, TypeScript, Node.js, Express, MongoDB, Redis, Socket.IO | GitHub | Live

- Built a multi-tenant issue tracker with organization/project management, ticket workflows, comments, and JWT authentication; enforced tenant-scoped authorization and role-based access control.
- Implemented real-time ticket updates and notifications with Socket.IO, using the Redis adapter to relay events across server instances.
- Developed an analytics dashboard with MongoDB `$facet` aggregation to report ticket status, priority, assignee workload, weekly throughput, and average cycle time.
- Added optional Redis cache-aside analytics caching, version-based invalidation, and shared rate limiting, with fallback behavior when Redis is unavailable.
- Configured GitHub Actions CI to run backend tests with MongoDB and Redis services; orchestrated local services with Docker Compose and deployed the backend on Render.

Product Catalog API | Node.js, Express.js, MongoDB, React | GitHub | Live

- Developed RESTful APIs for product browsing and category filtering using Node.js, Express.js, and MongoDB.
- Implemented cursor-based pagination using the compound ordering `(createdAt, _id)` to retrieve records consistently without duplicates or omissions.
- Added MongoDB indexes to support filtering and pagination queries, and deployed the backend on Render with the React frontend on Netlify.

ACHIEVEMENTS

- Solved 600+ Data Structures and Algorithms problems across LeetCode and Codeforces.
- Achieved a highest LeetCode contest rating of 1624 and a highest Codeforces rating of 1249.
- Reached Global Rank 2937 in a LeetCode Biweekly Contest and Global Rank 1942 in a Codeforces Division 3 contest.

SKILLS

Languages: C++, C, Python, JavaScript, TypeScript, Java, HTML, CSS
Frameworks & Libraries: React.js, Node.js, Express.js, Socket.IO, Tailwind CSS
Databases & Caching: MongoDB, MongoDB Atlas, PostgreSQL, MySQL, Redis
Tools & Technologies: Git, GitHub, Linux, Postman, VS Code, REST APIs, Docker, Jupyter
Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Computer Architecture
